

# History of Mathematics. Math 3010-001. Fall 2023

## Announcement

Dear Class,

Welcome to the math-3010 Topics in History of Mathematics course.

I will lecture online during the first week of the class because I will be in Tokyo at the ICIAM Congress. I prerecord the lectures and will publish them in Canvas; the handouts are displayed in this page.

We will meet online for discussion sessions at 3:30 pm Mountain time (6:30 am in Tokyo) on Monday, August 21, and Wednesday, August 23. Message me via Canvas or email.

The meetings in the second week and after will be in person as listed in the schedule: MoWeFr 11:50 am-12:40 pm in LCB 225.

Thank you for understanding. It will be a great class.

Best,

Andrej Cherkaev
