

Representation Theory of Real Reductive Lie Groups

A conference celebrating the birthdays of Bill Casselman & Dragan Milić

Primary Lecturers:

Jeffrey Adams (Maryland)

with the assistance of Fokko DuCloux (Lyon)

Dan Barbasch (Cornell)

Roman Bezrukavnikov* (MIT)

Dan Ciubotaru (MIT)

Werner Hoffmann (Bielefeld)

Jean-Pierre Labesse (Marseilles)

Ivan Mirković (Massachusetts)

Wulf Rossmann (Ottawa)

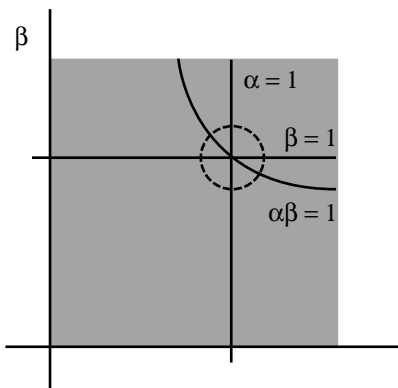

Wilfried Schmid (Harvard)

Diana Shelstad (Rutgers)

Kari Vilonen* (Northwestern)

David Vogan (MIT)

*to be confirmed

Organizers:

James Arthur (Toronto)

Wilfried Schmid (Harvard)

Peter Trapa (Utah)

June 3 - 8, 2006, Snowbird Mountain Resort, Utah
www.math.utah.edu/~ptrapa/src2006

Supported by a grant from the National Science Foundation.

The conference will be largely instructional with most lectures aimed at graduate students. It will follow a two-week graduate minicourse devoted to the theory of $SL(2, \mathbb{R})$ held at the University of Utah from May 21 through June 2: www.math.utah.edu/sl2
