PROGRAM DESCRIPTION
Mathematics majors take Calculus, Linear Algebra, Differential Equations and Foundations of Analysis. Subsequent electives may include Statistics and Probability, Complex Variables, Modern Algebra, Mathematical Finance, Number Theory, Real Analysis, Topology, Dynamical Systems, Differential Equations, Applied Math, Numerical Analysis, and Mathematical Biology. Most majors are required to complete a year of physics, and all are urged to take other science, business or engineering courses, a probability or statistics course, and to attend the Undergraduate Colloquium Series. Mathematics majors are also encouraged to consider internship and research opportunities.

ADVISING
We encourage students to make an appointment with an advisor regarding major declaration, mandatory advising visits, double majoring, the combined BS/MS program, and academic planning. Students should see their academic advisor at least once a year, though students are welcome to come by any time they have questions.

For quick questions, no appointment is necessary to meet with the undergraduate advisors, simply stop by during drop-in advising office hours which are posted at math.utah.edu/ugrad/advising.php.

TRANSFER STUDENTS
Transfer students are encouraged to contact the advisors early in their academic career, even prior to admission to the University of Utah.

To have your math transfer courses evaluated use the Transfer Course Evaluation Form at math.utah.edu/undergrad/registration.php.

Many transfer students will require a permission code to register for math classes their first semester. See math.utah.edu/undergrad/registration.php for more information.

Math majors who need transfer courses evaluated for general education or bachelor’s degree requirements may email the course description and syllabus to advisor@math.utah.edu.

AP CREDIT
A score of 3, 4 or 5 on the AP Calculus AB test or a score of 3 or 4 on the AP Calculus BC test is awarded six semester hours of credit. A score of 5 on the AP Calculus BC test is awarded eight hours of semester credit. The math department uses AP test scores to determine course placement as follows:

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>AB</td>
<td>3</td>
<td>MATH 1210</td>
</tr>
<tr>
<td>AB</td>
<td>4</td>
<td>MATH 1220 or 1250</td>
</tr>
<tr>
<td>AB</td>
<td>5</td>
<td>MATH 1250 or 1220</td>
</tr>
<tr>
<td>BC</td>
<td>3</td>
<td>MATH 1220</td>
</tr>
<tr>
<td>BC</td>
<td>4 or 5</td>
<td>MATH 1260 or 2210</td>
</tr>
</tbody>
</table>

NOTE: MATH 1250-1260 covers in two semesters roughly the same material covered by MATH 1210-1220-2210 in three semesters. The MATH 1250-1260 sequence also covers the material in a more in-depth and theoretical manner.

Philosophy is written in this grand book, the universe, which stands continually open to our gaze. But the book cannot be understood unless one first learns to comprehend the language and read the letters in which it is composed. It is written in the language of mathematics, and its characters are triangles, circles, and other geometric figures without which it is humanly impossible to understand a single word of it.

--Galileo, 1623
UNIVERSITY REQUIREMENTS

Minimum University Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Credits Requirement</td>
<td>122</td>
</tr>
<tr>
<td>Upper Division Hours (3000 Level or Higher at U of U)</td>
<td>40</td>
</tr>
<tr>
<td>U of U Residence Hour Requirement</td>
<td>30</td>
</tr>
</tbody>
</table>

(20 of last 30 hours must be earned in residence. Independent Study credits do not count as resident credits.)

General Education Credits | See Below
Minimum GPA | 2.0
Completion of Major Requirements | See Below
Completion of minor (if desired) | See Dept.

General Education Requirements

- **American Institutions (AI):**
  HIST 1700 or ECON 1740 or POLS 1100

- **Writing (WR):**
  WRTG 2010 or ESL 1060

- **Quantitative Reasoning (QA/QB):**
  Calculus I fills both the QA and QB requirements (or waived by AP credit).

- **Intellectual Explorations (IE):**
  Two courses must be taken from each of the following areas: Fine Arts (FF), Humanities (HF), and Social Sciences (BF).

Bachelor Degree Requirements

- **Upper Division Communication/Writing (CW):**
  One course chosen from an approved list (MATH 3010 fulfills this requirement, or you may choose from the list of approved courses in the Undergraduate Bulletin).

- **Diversity Requirement (DV):**
  One 3-credit course chosen from an approved list.

- **International Requirement (IR):**
  One course chosen from an approved list.

- **B.S. or B.A. Requirements:**
  Math major courses fulfill both B.S. QI requirements. The B.A. requirement will be filled with a fourth semester of a upper division language course or credit by special exam.

MATH DEPARTMENT REQUIREMENTS

In addition to the required coursework outlined in this publication, all math majors are required to:

1. Receive a “C” or better in all math courses (this applies to the minor also) and a “C-” or better in allied courses. Teaching majors must receive a “C+” or better in all math courses and a C or better in physics.

2. Maintain a minimum GPA of 2.3 in mathematics courses. Teaching majors must maintain a minimum GPA of 2.8 in mathematics courses.

3. Complete at least 18 upper division credit hours of University of Utah mathematics courses.

4. Successfully pass, with a C or better (C+ or better for teaching majors), all mathematics courses within 3 attempts. Failure to pass any mathematics course with a C or better within 3 attempts will result in dismissal from the major. A withdrawal will be considered an attempt.

5. An exit survey is required the semester a student graduates.

NOTE: Qualified students are encouraged to substitute MATH 1250-1260 for MATH 1210-1220-2210. Students who have taken courses in the engineering math sequence should see an Undergraduate Advisor to review how those courses will fill requirements in the major.

REQUIREMENT CHANGES

Students are generally held to the Department of Mathematics graduation requirements in place at the time they declare their major. Students who interrupt their studies may be held to the graduation requirements in place when they re-enter the University. Graduation requirements shown on this sheet are deemed to be reliable, however, it is the student’s responsibility to check with the advisor periodically concerning possible changes or corrections.

</tr>
</tbody>
</table>

Students MUST complete the Secondary Teacher Licensure Program through the Urban Institute for Teacher Education (UITE). See uite.utah.edu/advising.php to schedule an appointment regarding licensure program requirements.

It is strongly recommended that students complete a teaching minor in another subject area.

### COMPREHENSIVE EXAM

To graduate with a mathematics teaching major students must receive a score of **165** or higher on the Praxis Exam #5161: “Mathematics: Content Knowledge.” To register see ets.org/praxis.
HONORS DEGREE IN MATHEMATICS

In order to pursue an Honors Degree in Mathematics, students must first be admitted to the Honors College. Students must complete the coursework required by the Honors College as well as the mathematics coursework. For more information please see the Department of Mathematics Undergraduate Advisors.

DEPARTMENT REQUIREMENTS

In addition to the requirements for the mathematics degree you have selected, the following requirements apply to those students seeking an Honors Degree:

- MATH 3000 Undergraduate Colloquium 1
- B or better in all courses required for major
- Math GPA of at least 3.5
- Overall GPA of at least 3.5

HONORS COLLEGE REQUIREMENTS

</tr>
<tr>
<td>MATH 4800 Intro to Research</td>
<td>3</td>
</tr>
<tr>
<td>MATH 5210 Intro to Real Analysis</td>
<td>4</td>
</tr>
</tbody>
</table>

Students in the Honors College are encouraged to visit with their Honors Advisor, Department of Mathematics Faculty Honors Advisor, and Department of Mathematics Undergraduate Advisor to check their progress.
Mathematics Minors must receive a C or better in all math courses.

**REQUIRED COURSES**

</tbody>
</table>

**ELECTIVE COURSES**

Select three Department of Mathematics courses with a prerequisite of at least Calculus II. Please have your course choices approved by the Undergraduate Advisors.

NOTE: One elective MUST be MATH 2200 (recommended), MATH 2270, or MATH 2250 in order to satisfy prerequisites for Foundations of Analysis.

1.
2.
3.

*NOTE: To fulfill requirement, student must take Math 3220 or any Math course numbered 4200 or higher, EXCEPT:

MATH 4910, MATH 4950, MATH 4999, MATH 5000, MATH 5140, MATH 5150, MATH 5155, MATH 5160, MATH 5165, MATH 5270, MATH 5280, MATH 5700, MATH 5960, MATH 5969, and MATH 5910.

Mathematics Teaching Minors must receive a C or better in all math courses.

<td>2</td>
</tr>
</tbody>
</table>

The Mathematics Teaching Minor is available ONLY to students completing a teaching major in another subject.

NOTE: Although MATH 2200 is not on this list, it is a prerequisite for some of the courses on this list.
# NOTES AND PLANNING:
