Math 1100 Materials Information

We are using the Inclusive Access Program for students to obtain Cengage Unlimited access for one semester. The cost is approximately $44. Students are automatically billed for this with their tuition. With Cengage Unlimited, you have access to the following course materials:

- *Mathematical Applications for the Management, Life and Social Sciences, 12th Edition* by Harshbarger & Reynolds
- Online Homework through WebAssign

You can access the materials through links in Canvas. Here is additional information.

- Students have the option to OPT OUT of inclusive access materials, but we highly recommend you do not do this. If you opt out, you are not able to do the required online HW in WebAssign. The only way to get WebAssign access is to purchase this separately, which costs about 4 times more than going through inclusive access. It can be purchased separately through the UofU Bookstore.

- If you would like to occasionally use a physical book (this would be in addition to inclusive access), there are a couple copies of the book at the Reserve Desk in the Marriott Library that can be check out for a few hours at a time.

- If you would like to purchase a physical copy of the book (this would be in addition to inclusive access), a loose-leaf version is available for purchase at the bookstore.

- Many business school classes also use Cengage materials. If additional classes also require Cengage unlimited, you will only be billed one time, and you have access to materials for all these courses for the semester!

If you have any questions or feedback, please feel free to email me.
