

# Summer workshop for teachers

**August 3 -August 7, 2009**

We promise an intellectually stimulating, friendly and engaging atmosphere filled with challenging problems both mathematically and pedagogically.

Typical workshop day

8:30-9:00	Breakfast with colleagues
9:00-12:00	Teachers' Circle – part of the day devoted exclusively to mathematics dressed up into intriguing problems
12:00-1:00	Lunch
1:00-2:30	Discussion of methods for and practice of teaching or Seminars – mathematics and mathematics education
2:30-3:00	Show and tell – your time to lead
3:00-3:30	Tea
3:30-5:00	Working groups- time to translate new knowledge into lessons or other resources that you can use and share with your colleagues
Evenings	Free, or dinner and social hour

Participants can stay at the University of Utah dorm housing. Funding is available for travel costs and per diem. Teachers who do not live in Salt Lake Valley will be given preference in terms of support, but everybody is welcome to apply and attend. Applications will be reviewed starting in April. Review will continue until early July or until all the openings are filled.

## *Where do the numbers take us?*

This year's topics will take us from numbers through algebra to calculus and beyond...
