

Using the x-*.bst extended bibliography styles with plain T_EX

This is a short test to show that bibliography files produced with the x-*.bst styles can be successfully typeset with plain T_EX.

From the article: “American scientists heard today of a new phenomenon in physics — explosion of atoms with a discharge of 200,000,000 volts of energy. . . . Dr. Enrico Fermi of the University of Rome told yesterday that this had been accomplished by Dr. G. [sic] Hahn of Berlin. . . . Scientists at the meeting said the discovery was comparable in significance to the original discovery of radioactivity thirty years ago.”.
