

University of Utah

Ph.D. Graduate Study in Mathematical Biology

The **POWER** of Mathematics
&

The **EXCITEMENT** of Biology

Fellowships Available for 2016!

The Mathematical Biology program provides for broad mathematical training with the opportunity to do cross-disciplinary research in a wide range of areas in modern biology. The program includes mathematics and life science coursework, laboratory rotations, internships, journal clubs, and mentoring from a diverse faculty. The program leads to a Ph.D. in mathematics.

Areas of specialization include:

Biological Fluid Dynamics

Cell Biology

Ecology

Immunology

Neuroscience

Physiology

Population Dynamics

Molecular Biology

The University of Utah is committed to a policy of equal opportunity in student admissions, student financial assistance, and faculty and staff employment and advancement, without regard to race, color, religion, sex, or national origin.
