Discrete Math 2200. Problem Set 10

Due date: Tuesday, December 9, in class. Late homeworks are not accepted, except for a medical or some other university approved reason.

The numbering of the exercises below is as in the textbook (Rosen, ed. 6). Only even numbered exercises will be graded (unless specified otherwise), but I recommend you try to do all of them for practice.

Problem 2. section 6.2, pages 414-416: ex. 3, 6, 9, 15, 24, 28, 31, 34
