

Math 6070-1, Spring 2014; Assignment #7

Due: Monday April 21, 2014

1. Read the bootstrap module at <http://www.math.utah.edu/~davar/math6070/2014/ResamplingMethods.pdf>.
2. Consider the data in the file <http://www.math.utah.edu/~davar/math6070/2014/Homework/hw7Data.txt>. Use the data in order to find an approximate 95% bootstrap confidence interval for the median of the population. What assumptions are you making?
