MATH 200(55): Homework 6
Due Wed Feb 27

Problems: For full credit you need to show all the work leading to your solution.

5.5: 8, 12, 28 (you may need to do more problems to fully feel comfortable with triple integrals for the exam, if you need more practice try other problems nearby the ones I assigned)

6.2: 24, 26, 30, 33

7.1: 5, 8, 17, 21, 24, 26

The following problems will be assigned on the next homework, do not turn them in with this homework. I'm putting the problems here since depending on what we cover this material could be on the exam.

7.2: 1, 14, 16, 17
