

Math2270, Spring 2007: Homework 14

Dr. David M. Goulet

Due April 24, 2007, 10:45am in class

Name _____

Student ID # _____

Do all of the following problems. Write clearly and use well-written sentences to explain all of your work. Mathematics, especially equations and plots, usually looks best when written on plain white unlined paper. Label each problem clearly and be sure that each page has your name and a page number written on the upper right corner. Attach this page as the cover sheet of your assignment and staple all pages together securely.

1. §8.1, #'s 6, 10, 14b, 28
2. §8.2, #'s 12, 20
3. §8.3, #'s 14, 17, 18, 26
