

## Quizzes

A Quiz is a take-home problem set, one per week. They are graded like exams, score 0-100 on each problem. The quizzes make up 10 percent of the final grade.

Quizzes are assigned weekly, and due the next week. If it is week 5 and this message appears instead of Quiz5, then there is a mistake. Sometimes, the missing Quiz is due to browser caching. Please reload the PDF for the missing quiz, to insure there really is a mistake. Ask a friend with a different computer to confirm the mistake. Then please call, write email or ask questions in person.

## Midterm Exams

They will parallel historical 2250 exams, 2014 and earlier. Sample exams will be posted when first available. There is a rich history of midterm exams available on the course web site.
