

Math 4200
2nd Exam Review Sheet: §2.4 - 4.4

Concepts diagram: You should know key definitions & thms (statements & proofs)

Format of exam will be like last time - probably choose 4 out of 6.

Expect

- some problems which are key theorems i.e. prove every fn analytic near z_0 has a power series there
- some contour integrals
- computing some residues and/or Laurent/Taylor
- more!
