List two things about the instructor that were effective for your learning, or make constructive suggestions for improvement. (LINK)	Katie did a good job teaching this semester. Sometimes there were errors in handouts and on the board but I expect some of that in a live math class. She made time for students and was extremely helpful during office hours and review sessions. My only suggestion is to proof read handouts while paying special attention to the numbers and facts. Other than that, great instructor.

List two things about the course content, materials or design that were effective for your learning, or make constructive suggestions for improvement.	Office hours, by far the most helpful prof I have had. Always willing to meet with students. Also the review hand outs helped a ton.
List two things about the instructor that were effective for your learning, or make constructive suggestions for improvement. (LINK)	One thing that I think would have been a little more helpful learning the material is if when given practice problems on the board if we had a few minutes to attempt those problems. Usually a review problem was placed on the board and as a class we would go over it. I think if even just 3-5 min for students to attempt the problem would give them a good idea on how well they have retained the information.
