Homework 4

Due next week in class

Homework Assigned:

1. Prepare for your student assessment interview next week. We will meet at Skyline High School, 3251 E. 3760 S., Room 110, at 12:50 p.m. You will conduct your interview for about 25-30 minutes. Then, we will “debrief” in a separate room after the interviews are finished. Please dress appropriately.

Homework 5

Due in two weeks in class

Homework Assigned:

2. Prepare a lesson (to teach in class). You can choose to teach any activity centered around the geoboard. You will need to turn in your (brief) lesson plan. You should prepare at least two to three different lessons so we don't have overlap between presentations. Your teaching will last about 5 minutes.
3. Complete the problems on the Geoboard Activities worksheet handed out in class.

**Please remember that your report about your student interview is also due in two weeks. (It is a separate assignment than the weekly homework, since it counts toward a different category in your grade calculation.)*
