Office: JWB 331
E-mail: preszler@math.utah.edu
Website: http://www.math.utah.edu/~preszler/teaching/
Phone: 801-581-5722

Office Hours: My office hour for this term is tentatively:

Wednesday: 10:00 - 11:00 am
If you are unable to use the above time, you may make an appointment to see me.

Text: Calculus, 9th edition, by Varberg, Purcell, and Rigdon.

Additional Resources and Information:
Tutoring: Math Tutoring Center (under the plaza between LCB and JWB), hours: 8:00 am - 8:00 pm Monday through Thursday and 8:00 am - 6:00 pm on Fridays starting the second week of classes.
Math Library: 1st floor JWB (N side of President’s Circle)
Math department website: http://www.math.utah.edu

Calculators: Calculators are allowed in this course and can be used in class, on homework, and during tests. A graphing calculator is not required nor needed; a basic scientific calculator is plenty. The following buttons will be essential for a calculator to have in this course, in addition to the basic arithmetical operations.

Also you may be asked to solve problems without a calculator on quizzes or tests.

If you have questions about whether your calculator is sufficient, please come see me. Additionally, PDA’s, handheld computers, or cell phones will NOT be allowed on tests.

Prerequisites/Course Content: Math 1050 and Math 1060 are the prerequisites for Math 1210. This assumes a basic knowledge of algebra and geometry including: manipulating variable expressions, working with simple equations and their graphs, working with fractions and exponents, and knowing the basic properties of simple geometric shapes. Also you should be familiar with matrices, exponentials, logarithms, trigonometric functions and systems of linear equations. If you are wondering if you are prepared for this class please come talk to me.

The main topics of Math 1210 are:

- Limits (Ch. 1)
- Derivatives and applications (Ch. 2,3)
- Integrals and applications (ch. 4,5)

Time permitting we may cover additional topics.

Homework/Quizzes/Exams: All assignments and due dates will be posted on the course website (www.math.utah.edu/~preszler/teaching/).

No late work will be accepted.

Quizzes will be given in addition to homework. The quizzes will be short (10-15 minutes), in-class quizzes given approximately 8 times during the semester. Quizzes will be announced at least two class
sessions in advance. Your 2 lowest quiz scores will be dropped at the end of the semester, for this reason no make up or early quizzes will be given.

Occasionally there will be written homework assignments in place of quizzes. These must be turned in at the BEGINNING of class on the stated due date.

You will have three (3) exams throughout the year and a comprehensive final exam (not one of the other 3). Your lowest exam will be dropped, so only 2 will count toward your final grade. The structure and topics of each exam will be discussed prior to the examination date, but they will be held in class. There will be no make up exams and alternate dates will only be arranged for participants in University sponsored activities that prevent those students from being in class, students with disabilities falling under the ADA, or certain emergency situations. Such students should inform me of the conflict ASAP (athletes and those with disabilities should inform me early in the semester).

Exam Dates: The dates of the exams are:

• Exam 1: Friday, Sept. 22 (in class)
• Exam 2: Friday, Oct. 20 (in class)
• Exam 3: Friday, Nov. 17 (in class)
• Final: Friday, December 15 at 1:00 - 3:00 PM

Course Grade: The grading for this class is:

• Quizzes and Homework - 35 %
• Exams - 20% each (see dates, in class) - 40 %
• Final (Fri. Dec. 15, 1:00-3:00) - 25 %

Withdrawal Policy: You may drop the course without penalty on or before Sept. 1. You may withdrawal from the course on or before Oct. 20. Withdrawal will not, however, yield a refund of tuition.

Nondiscrimination and Disability Access Statement: The University of Utah is fully committed to policies of nondiscrimination and equal opportunity, and vigorously pursues affirmative action in all programs, activities, and employment with regard to race, color, national origin, sex, age, and status as a person with a disability. Religion, sexual orientation, and status as a disabled veteran or veteran of the Vietnam era also are protected under nondiscrimination and equal opportunity employment policies. The University seeks to provide equal access to its programs, services and activities for people with disabilities. Reasonable prior notice is needed to arrange accommodations. Students should call 801-581-5020 or 801-585-1813 (both are TDD). Evidence of practices not consistent with these policies should be reported to the Employee Relations/Dispute Resolution Office, 801-581-8365 (voice or TDD). If you require special accommodations under the ADA please inform me through official channels early in the semester.

Disclaimer: This syllabus has been created as a guide to the class and is as accurate as possible. However, all information is subject to change as class needs change. Any changes will be discussed during class sessions and documented in writing. A current syllabus will be posted on my website for the course.

Academic Integrity: Plagiarism, cheating and other forms of academic integrity violations are serious matters and will be dealt with according to University policies. Such violations could result in a grade of (E) for the course or dismissal from the University. If you have questions or concerns about what constitutes plagiarism or if you have properly cited external material, please come talk to me.
