

## ❑ course evaluations ❑❑❑

---

**University of Utah**  
**Course and Instructor Evaluation Written Comments Report**  
**Fall 2006**

**College/School:** College of Science**Print Date:** 04-Jan-07**Instructor:** HORVATH,ZSUZSANNA;**Subject:** Mathematics      **Course #:** 3070 - 008**Enrollment:** 14**Course:** Applied Statistics I**Evaluations processed:** 9

List two things about the course content, materials or design that were effective for your learning, or make constructive suggestions for improvement.

- The lab was a waist of time. The instructor was good.
- I liked the fact that each session built on the next, so that knowledge could be built from week to week. It would have been nice for the assignments to be more rigorous.
- I thought there were too many goats used in the textbook examples. Wait maybe that was just my textbook. Nevermind.
- The lab helped me to get a first hand experience on programs that are used in the field.

HORVATH,ZSUZSANNA: List two things about this instructor that were effective for your learning, or make constructive suggestions for improvement.

- Instuctor was good she seemed to lack some confidents.
- Zsuzsanna did a wonderful job of answering everyone's questions when they came up. She also made a big effort to answer people's questions when they had them. She was very patient and understanding.
- Suggestions for improvements: Don't loan your car keys or room keys to anyone even if they are family or close friends.
- She did a great job answering all of my questions and helping me through confusing sections. i enjoyed the class because she was easygoing and made the environment feel relaxed.
- She did a good job at making sure that everyone understood what was going on. She also did a good job at making handouts to help present the material and help the student

remember the material.
