I anticipate this homework to be due on February 3

- Our first computer lab is scheduled for February 1. By registering in this class you will have an account created on the math server. If you have never used your math account, you will need to access it (this should take less than 5 minutes). **Please go to the computing lab (in the Math Tutoring Center) before February 1 to access your account. The assistants there should have the necessary information for you.**
