Chapter 5 Review (Sample Test Problems)
#1-6 all, 8, 11, 12, 15, 16, 18-23 all

*If you want extra practice with story problems, you can also do
2.8    #4, 13
3.4    #6, 8, 14, 15

The test covers everything we've covered in this class. I can guarantee that there will be problems on the test (probably about 30-40%) that cover sections 4.3-4.5 and chapter 5, since that hasn't yet been covered on a midterm. The rest of the exam will focus on the other stuff. If you want a good idea of what I think is important from the semester up to the third midterm, review your midterms and quizzes. :)

You can also bring two pages of notes (on both sides, if you want) to use as a reference. You can also bring and use a calculator.
