Math 1210
Basic Review

A few students asked for a list of topics they should review from Calculus I. In looking through the book, I made a list of crucial topics which need to be understood.

1. Limits, specifically sections 2.4-2.8
2. Derivatives, specifically sections 3.3-3.5, and possibly 3.8
3. Max/Min problems, specifically sections 4.3/4.4
4. Integrals, specifically sections 5.1-5.3, 5.5, 5.7-5.8
5. Volumes using integrals, specifically sections 6.2-6.3

If you have any questions, you can talk to me, or you can get help in the math tutoring center.
