

The University of Utah math department and AWM student chapter present the 2nd annual...

WHAT IS MATH?

An opportunity for advanced high-school and beginning undergraduate students to explore topics in advanced mathematics.

23 MARCH, 2013

You are invited to join the University of Utah's chapter of the Association for Women in Mathematics for the second annual "What is Math?" day. Students will attend short lectures on several broader topics, eat lunch with the speakers and organizers, and have the opportunity to participate in a collaborative math-related art project.

SCHEDULE

- 9³⁰-10 Registration
- 10-11 Keynote Address
- 11-11³⁰ Session 1
- 11³⁰-12 Session 2
- 12-1 Lunch
- 1-1³⁰ Session 3
- 1³⁰-2 Session 4
- 2 Closing Remarks

SPEAKERS & TOPICS

Kim Ruane Keynote Address
Patrick Bardsley Applied Math
Thomas Goller Tropical Geometry
Greg Rice Statistics
Aaron Wood Number Theory

Our aim is to inspire curiosity and we hope that attendees will want to explore further study in mathematics. We also hope to foster communication and establish connections between math department faculty and prospective students.
