<sup>1</sup>Distinguished Professor of Mathematics, University of Utah, USA, golden@math.utah.edu

<sup>2</sup>Associate Professor in Applied Mathematics, University of Adelaide, AU, luke.bennetts@adelaide.edu.au

<sup>3</sup>Professor of Mathematics, University of Utah, USA, elena@math.utah.edu

<sup>4</sup>Associate Professor in Climate, Atmospheric Science, and Physical Oceanography, Scripps Institution of Oceanography, University of California San Diego, USA, eisenman@ucsd.edu

<sup>5</sup>Professor of Climate Physics, University of Reading, UK, d.l.feltham@reading.ac.uk

<sup>6</sup>NOAA Climate and Global Change Postdoctoral Fellow, Institute at Brown for Environment and Society, Brown University, USA, christopherhorvat@brown.edu

<sup>7</sup>Deputy Group Leader, T-3 Fluid Dynamics and Solid Mechanics Group, Los Alamos National Laboratory, USA, eclare@lanl.gov

<sup>8</sup>Bill Guthridge Distinguished Professor of Mathematics, University of North Carolina, Chapel Hill, USA, ckrtj@unc.edu

<sup>9</sup>Professor of Engineering, Dartmouth College, USA, donald.k.perovich@dartmouth.edu

<sup>10</sup>Raymond S. Markowitz Faculty Fellow and Professor of Mechanical Engineering and Applied Mechanics and of Mathematics, University of Pennsylvania, USA, ponte@seas.upenn.edu

<sup>11</sup>Associate Professor of Atmospheric Sciences, University of Utah, USA, court.strong@utah.edu

<sup>12</sup>Professor, Department of Mathematics and Statistics and Department of Mechanical Engineering, University of New Mexico, USA, sulsky@math.unm.edu

<sup>13</sup>Associate Professor in Physical Climate Science, University of Oxford, UK, Andrew.Wells@physics.ox.ac.uk
