Questionnaire – Linear Algebra
MATH 2270-1 - SPRING 2003

Please, answer the following questions. There are more questions on the back of the page.

1. Name:

2. E-mail address:

3. Give a “secret code-name” that can be used to list your grades on the course web page.
   If you prefer not to have your grades posted at all, just leave this space blank.

4. List all the mathematics courses you have taken at the University.

5. What are your current (scientific!) interests? For instance, what are you majoring in?
6. What course(s) do you plan to take next where you think that you will apply what you learn in this class?

7. Did you have any previous exposure to linear algebra? Where?

8. What other courses are you taking during this semester?
